Hampshire Alert is a free web based messaging service that allows you to tailor what you want to receive alerts about from your local police.

The local community in Waterlooville plays a key role in helping us prevent and detect crime as well as dealing with anti-social behaviour. Improving the flow of information between the police and the community is vital to achieving our aim to work together to deter criminals and keep communities safe.

We would like as many members of the community as possible to register to become a recipient of messages of information, crime alerts and witness appeals local to this area and relevant to your own interests. Just visit www.hampshirealert.co.uk and click on the REGISTER button to sign up.

What alerts will I receive?

Once registered you will receive alerts from us in relation to issues that are relevant to you.

The system allows us to send messages to people living in a particular area, or of a particular demographic (e.g. all females over 40 living in Cowplain) or those with a specific interest (e.g. all dog owners.)

You are able to select the level of priority messages you receive so if you only want to receive alerts about serious crimes in your area select high priority however if you want updates on local policing issues in the community from the team select all priority levels. We will grade alerts accordingly.

We will not be sending out Spam messages or advertising.

As a registered recipient you will not only benefit from two way messaging but may also hear about positive police action in your community, help identify suspected or wanted criminals or learn about community groups, events or meetings in your area. We will also from time to time canvas your views on what the local policing priorities should be enabling you to shape the activity carried out by your local Neighbourhood Policing Team.

PLEASE NOTE: THIS SERVICE IS NOT FOR REPORTING CRIME OR INCIDENTS TO REPORT THESE PLEASE CONTACT HAMPSHIRE CONSTABULARY ON 101.
