<b>Ourselves</b>	<b>Babies Light and dark</b>	<b>Forces</b>	<b>Plants / Environment</b>	<b>Materials / floating and sinking</b>	<b>Animals</b>

**Understanding of the world** involves guiding children to make sense of their physical world and their community through opportunities to explore, observe and find out about people, places, technology and the environment.

**Skills:**

Children know about similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another. They make observations of animals and plants and explain why some things occur, and talk about changes.
