

ICE & SNOW PLAN**Purbrook Infant School**

Name of Premises/School/Organisation	Purbrook Infant School
Date of Plan Issue/Review	December 2018
Name of Responsible Manager/Headteacher	Lisa de Carteret

Introduction	
---------------------	--

Implementation of this Ice & Snow Plan is to be initiated upon notification or recognition of icy and/or snowy conditions that may result in unsafe access or egress from the site, affecting any or all staff, children or visitors, whether as pedestrians or when driving vehicles.

This Ice & Snow Plan is specific to this site and owned by the responsible manager/headteacher. It is to be reviewed annually and/or following any change in procedures or premises that may affect its effectiveness.

Icy Conditions Risk Assessment	
---------------------------------------	--

An icy conditions risk assessment has been completed. The identified hazards have been considered and appropriate control measures have been introduced as detailed in this Ice & Snow Plan. All staff are to ensure that they are familiar with the contents of our premises Icy Conditions Risk Assessment.

Site Plan (for Use During Ice and Snow)	
--	--

A site plan of the premises/school is attached as part of this plan. It identifies the following information:

- Gates and entrances/doors that will be used during unsafe ice/snow conditions
- Gates and entrances/doors that will not be used during unsafe ice/snow conditions
- Access routes that will be open and maintained for pedestrians
- Traffic routes that will be open and maintained for drivers
- Access and traffic routes that will not be maintained or used
- Grit storage areas
- Areas of responsibility for maintaining safe routes on shared sites or where shared occupancy exists
- Higher risk areas which require additional maintenance (eg. steps, slopes, specific entrance areas)
- Locations of (cleared) snow mounds (where appropriate)

Grit Storage	Grit is held on site as located on the site plan. The grit containers are to be kept full and locked at all times. Fully stocked grit containers will be expected to enable 5 days of use. A full restock of grit supplies will require purchase of 30 of bags/sacks.
---------------------	---

Equipment and Protective Clothing	Equipment for gritting and personal protective clothing is held on site in the caretaker storeroom/boiler room. The following is held for use as required by staff: <ul style="list-style-type: none"> • Grit spreading bucket • Shovels • Brooms and rakes
--	--

CHILDREN'S SERVICES HEALTH & SAFETY

	<ul style="list-style-type: none">• Protective clothing• Gloves and boots• Physical barriers• Cones, cordoning tape, warning signs
--	---

Preparations Prior to Plan Implementation	
--	--

The following is to have been completed prior to the requirement to implement the plan:

- Caretaker/site manager/site management team and other staff involved in gritting and snow clearing tasks must have attended moving and handling training (in date within the last three years)
- All staff and shared occupants to be provided with details of the plan and requirements
- All staff and shared occupants to be provided with **Guide to Driving in Ice & Snow (CSHST)**
- Grit levels and equipment checked at termly/quarterly intervals
- Grit bunker/container locking arrangements periodically checked for effectiveness
- Additional staff positioning (to assist direction at busy times) to be identified

Implementing the Ice & Snow Plan	
---	--

Upon notification and/or recognition of unsafe conditions due to ice and/or snow the management team will meet and confirm requirements. The following actions, in accordance with the site plan, will be undertaken by the site manager/caretaker/site management team under the direction of the headteacher/responsible manager or other nominated person:

- Close and lock gates where access/egress is considered unsafe and will not be permitted
- Appropriate signage to be erected where routes/gates are closed for use
- Appropriate signage advising of safe routes to be erected
- Snow clearing of pedestrian and traffic routes to be undertaken
- Clearing of entrance areas outside of property boundaries to assist in safe access/egress
- Gritting of icy routes and snow cleared areas where access/egress is to be permitted
- Use of snow clearing working parties (eg. involving parents) to be separately assessed for safety
- Assess playground for safety and cordon off/restrict access as appropriate
- All staff to be briefed as to permitted accesses and egresses
- Newsletters sent to parents advising of safe access/egress routes on site
- Information and requirements to be shared with others where sites have shared occupancy

Monitoring the Ice & Snow Plan	
---	--

Following implementation, the plan is to be monitored by ensuring the following actions are undertaken by the caretaker/site manager/site management team or other nominated persons:

- Early morning inspection to be carried out prior to staff/visitor/children arrival – allowing adequate time to implement any further gritting or changes to access/egress routes
- Increased daily inspections (am and pm) of safe routes/entrance areas to ensure continued safety
- Increased daily inspections of closed routes/gates/entrance areas to ensure restrictions maintained
- Regular re-gritting of access/egress/entrance areas/paths to ensure continuous effectiveness
- Emergency re-gritting of areas where measures found not to be effective or where further ice or snowfall has reduced the effectiveness of previous gritting
- Monitoring of grit supplies to maintain levels (where adequate supplies are available for order)
- Updating of staff and parents with regards to safe routes

CHILDREN'S SERVICES HEALTH & SAFETY

Recovering the Ice & Snow Plan

Following completion of adverse weather conditions causing unsafe conditions, the premises is to be reverted to normal and staff/parents informed as appropriate. Other actions to be undertaken include:

- Evaluating current Ice & Snow Plan to make improvements as identified
- Re-ordering of used grit supplies

Emergency Closure of Premises/School

In the event of extreme ice and snow conditions that cannot be adequately controlled, considerations, decision making and notification of emergency closure will be undertaken in accordance with HCC routine procedures. Closure of the school will be posted on the HCC website, all parents who have signed up to the service will receive a text message and email notification. Local radio stations will be informed.
