

## Home Learning Week 4 - 27/4/20 (Summer Term Week 2)

Hello Everyone!

Hope you are all well and looking forward to your next week of home learning. It's been fantastic looking at all your work on Purple Mash and especially the photos of your learning that you have been doing at home. Please ask your grown-ups to keep sending your work to [year1@purbrook-inf.hants.sch.uk](mailto:year1@purbrook-inf.hants.sch.uk).

Hope you've all seen the video on the Purbrook Infant School FaceBook page! Have a look if you missed it.

Thank you parents for your feedback on how you are finding the learning tasks. It is really useful and we have planned this week's learning slightly differently as a result. We have written ideas to extend your child's learning further in green and ways to support your child are in red.

This half term, we are going to use 'Dinosaurs' as the theme for our learning from the website. We will continue to set Purple Mash tasks, but hope that the children are becoming more independent so you can have a few minutes to get on with your jobs.

Aim to complete some literacy and maths every day. We have also planned some ideas that support the wider curriculum including creativity, science, history, geography and PE to make sure you're keeping active. It's fantastic that lots of families are taking advantage of this time to develop life skills including cooking, learning to tie shoe laces and riding bikes. Please continue to take time to do these too.

Draw a dinosaur with Rob Biddulph (Children's author)

<http://www.robbiddulph.com/draw-with-rob>

Create your own dinosaur world. You could use your dinosaur toys, draw them or create them using boxes.

Try the science experiment - download the file from the website.

Discover more about dinosaurs by playing this game from BBC Bitesize <https://www.bbc.co.uk/bitesize/topics/zdp4382/articles/znc3y9q>

Try a cosmic adventure with Tiny T-Rex

<https://www.youtube.com/watch?v=rnlDBKD2S78>

Have a proper PE lesson with Mr Dineen

<https://www.youtube.com/watch?v=d0v3wh7wfxI&safe=true>

Or try this when you go for your daily walk:

Take a coin with you. When you reach a junction, flip the coin and turn left for heads or right for tails! I wonder where your coin will take you? Perhaps you could draw a map when you get home to record your journey.

Feel good with a sing along
