

Year R Home Learning W/C 11.5.20

Topic: Castles

**Understanding of the World**

1. Watch the video at <https://www.youtube.com/watch?v=GVMvl05hCrI> and compare life now to life then.

| Life now | Life then |
|----------|-----------|
|          |           |

2. Go on a lifecycle hunt! Find a plant and see if you can research its lifecycle, then work out which stage it is in. For example, you could look at a bud and work out what the flower will look like when it opens.
3. Can you record a video of your learning? It could be a short part of a walk outside, a description of something you have made or even a message for your teacher!
