

Personal, Social and Emotional Development

1. Play a game with your family – this could be a board game, a card game or even top trumps! If you don't have anything at home, you could make your own top trumps cards first. Work out how to make the game fair (taking turns, reading and following the rules etc.) Can you be in charge of making it a fair game? Decide how you can make sure that everyone is a gracious winner or loser.

2. Make something – it could be anything at all! Perhaps you could cook or bake something, make a model or write a story. Can you say what is really good about it? Can you think of a way to make it even better?
3. Now that we know what bullying is, how could you make sure that you act like a good friend? – PP?

Religious Education

We have thought about our own special places and special places for different religions. Can you sum up your learning? You could use a table like this or do it in your own way – this could be a poster, a video, or something else!

A place that is special to me is... because...
A place that is special to Christians is... because...
A place that is special to Muslims is... because...
Can you think of any similarities about all of these places? Why are they special and how do they make people feel?
