

Maths

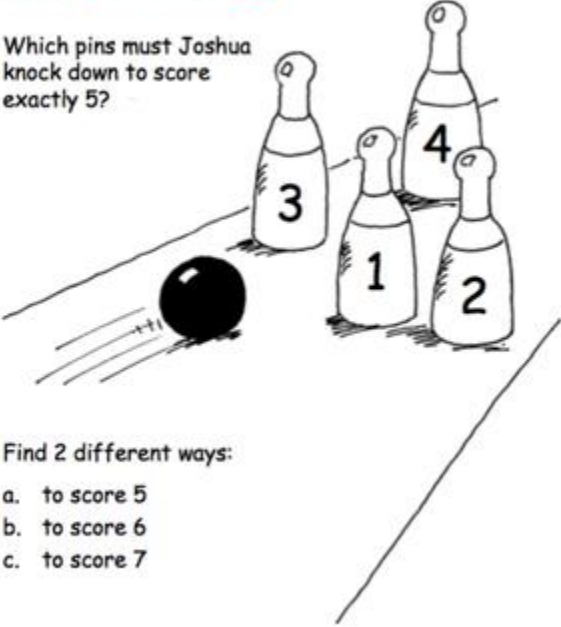

1. Using the addition skills you practiced last week, can you solve the following number sentences? A few of them are quite tricky! Remember to start with the biggest number, even if it isn't written first.

5 and 2 is ____	4 and 4 is ____	8 and 4 is ____	11 and 6 is ____
6 and 4 is ____	7 and 1 is ____	13 and 5 is ____	10 and 3 is ____
5 and 12 is ____	2 and 13 is ____	5 and ____ is 6	7 and ____ is 10

2. Joshua likes to go bowling with his friends. Can you help him find a way to make different totals? You can knock down as many pins as you like. When you have finished, can you find any other totals he could make?

Four-pin bowling

Which pins must Joshua knock down to score exactly 5?

Find 2 different ways:

- to score 5
- to score 6
- to score 7
