Maths

1. Doubling means adding the same number together twice. There are some great doubling songs and videos on Youtube, including these ones:
 - a. <https://www.youtube.com/watch?v=ORtrdtAhhkY> (Mr Double Trouble)
 - b. <https://www.youtube.com/watch?v=8jOzhiACB68> (I can add doubles)
 - c. <https://www.youtube.com/watch?v=Bot83VxMLqM> (Number blocks double trouble)
 - d. <https://www.youtube.com/watch?v=kr3F3MjhDEw> (Number blocks lucky doubles)
 - e. <https://www.youtube.com/watch?v=e-KTHfrFit0> (Double Number zoo)

Can you watch one every day?

2. Ben has a doubling machine. Every time he puts some objects or a number in, double that amount comes out! Can you make your own doubling machine? It could be a drawing on paper or a physical machine that you can count objects into! Can you use your machine to find out the answer to doubles questions?
