Topic: Water

Expressive Art and Design

1. Try bubble painting. You can mix some paint into washing up liquid and water, then blow bubbles and pop them on the paper. It makes bubble pattern on the paper!

2. On a walk or in your garden, find an interesting object (an unusual stone, flower, leaf or shell) and take it home to draw. Look at it like an artist and think carefully about the shapes, colours and lines that you can see. Remember to return it on your next walk!
