

Year R Home Learning W/C 29.6.20

Topic: Water

Understanding of the World

1. Lots of people have been visiting the beach to enjoy the sunshine. However, some people have been leaving rubbish behind. Think back to our learning from a few weeks ago and talk with your family about why this is a bad thing. Can you think of a way to spread the message to other people? Perhaps you could make a video, a poster or a sign to help remind people to put their rubbish in a bin.

2. Blow some bubbles (you can make your own bubble mix with washing up liquid.) Experiment with ways to change the bubbles – how can you make bigger, smaller, more or fewer bubbles by changing how you blow? How can you record what you learn?
