Home Learning Week 12 – 29/6/20

Hello Everyone!

You have really impressed us with your fabulous work learning exploring Asia! This week we are moving onto the continent Africa. Check out the map of Africa on the Year 1 page.

Below are some other ideas to explore the wider curriculum (geography, PE, art, etc.) There is also a Science activity to try on our Year 1 page.
A new PE challenge is set on our Facebook page each week, make sure you submit your score and you may find your name at the top of the leader board!

Well done for all your hard work so far whilst learning at home. We have really enjoyed seeing all the pictures of your work and are really impressed with the work you send in. Keep it coming as we will continue to share it in Friday assemblies.

Geography	Art
Jet off to the second largest continent, Africa. There are 4 helpful videos which will tell you lots about this fascinating continent. Can you write 5 fun facts that you learnt?	Read through 'African patterns' on the Year 1 page. Then make your own pattern inspired by your surroundings, using bold colours. You could use: Pencils, Paints, Felt tip pens, Chalk etc. Be creative!
Geography Find out what daily life is like for a child living in urban (city) Kenya here. Find out what daily life is like for a child living in rural (country) Kenya here. What is the same and what is different? How do their days compare to yours?	**Dance** Watch the video about African drumming and dance sequences. Think back to our dance PE lessons in school. Can you join the rhythm with a clap? Or using other areas of your body to make a sound. Can you make your own dance sequence?
Geography Learn about the River Nile here. Create a poster about the River Nile and how people use it for survival. This can be entirely through drawings or you can add some captions too.	**DT** Make your very own African drum. This is one way, but if you do not have the resources you can make one out of items you do have.
