

Home Learning Week 3 - 15/6/20

Hello Everyone!

You have really impressed us with your fabulous work learning about the UK. This week we are moving away from the UK and exploring more of Europe.

Below are some other ideas to explore the wider curriculum (geography, PE, art, etc.) There is also a Science activity to try on our Year 1 page.

Well done for all your hard work so far whilst learning at home. We have really enjoyed seeing all the pictures of your fantastic work and are really impressed with the work you send in. Keep it coming as we will continue to share it in Friday assemblies.

(year1@purbrook-inf.hants.sch.uk)

<p><u>Geography</u> Watch this video to learn about the 7 continents, globes and maps. This will be helpful for you throughout our topic. Then look at the continents map on the Year 1 page. Look at the size of Europe. Can you find the UK?</p>	<p><u>Music</u> Learn about how they create an orchestra out of ice in Norway here. You could make some sounds using ice cubes such as a shaker or you can make your own instrument using Jam Jars and water as they have here.</p>
<p><u>Geography</u> Take a quick trip around Europe here. Can you remember any countries or cities? Explore the map of Europe to see where these countries are on the map.</p>	<p><u>Wellbeing</u> Learn about why we get wobbly teeth.</p>
<p><u>Art</u> You can learn about the northern lights here. Recreate the Northern Lights. You may choose to use colouring in pencils, paint, chalk, tissue paper or any other media which you may have at home. There are pictures on the Year 1 page to give you some ideas.</p>	<p><u>Spanish</u> Visit Spain to learn about their daily routine at school and learn some Spanish too.</p>
