

## Room on the Broom and Frog on the Log

Both of these stories are my favourite stories because they rhyme. This makes the stories interesting to read. The main character in room on the broom is a witch but the main character in the frog on the log is a frog.

In both stories the characters help each other. Room on the broom has a mean dragon in it but the frog on the log doesn't have a mean character. At one point you think the frog is going to be eaten by the crocodile but the crocodile just needs some help. Both of the stories have a happy ending.
