T-rex is a carnivore. It had large and pointed teeth. It eats a lot of meat at one time and it doesn't eat in a few days.

Habitat

T-rex lived in forests, near rivers and in areas that are open.

Amazing Facts

T-rex means King of the tyrant lizards. He can run very fast. He had good eye sight to see

ou Raurosauk

Appearance

He is scary.

He's got a big

plates. He has
sharp claws.

He has four
legs.

Diet

He is a herbivore

he eats plants.

Habitat

He lives in Niger

it is hot, there

is a forest and

deserts.

Amazing Facts

Ouraurosauk means

Brave Lisaera

Habitats

- Plains
- Swamps
- Desert
- Shortlands
- Forest

Types of Dino's

- T-rex
- Velociraptor
- Triceratops
- Parasaurolophus

Dpe

- Cami Vore
- Eats Meat
- Sharp Teeth
- Herbivore
- Eats Leaves
- Flat Feet

Appearance

- Scales
- Feathers
- Plates
- Smooth and
- Rough

Devoldayurag

Appearance

He is orange
and red.
He has big
teeth. His
skin is scaly.

Diet

He eats sharks
and Allosauris.
He is a
carnivore.

Habitat

He lives in
the ocean.
He hides in
the sand,
He comes up
for oxygen.

Amazing Facts

He is a good swimmer.

T-Rex

Appearance

Sharp teeth

Little arms

Four legs

Very scary

Diet

he is a carnivore

he eats meat

Habitat

he lives in

Canada there

is deserts forests

and sea

Amazing Facts

pigeons are the family of T-Rex

M M NINJAT

Expect
The creature
has a bit of
color and some
stomach to
catch things
in its belly.

This is the creature

from animals.

That's
one animal that is

smaller than me

Habitat

I live in a desert
with not much water
and some tigh
ms we have sand

Stomach

Amazing Facts

My claws are not mere for tearing.

they are used to hold on tigh ter
to the prey

My Dinosaur Eretholopsia

The *Spinosaurus* Fro is
a meat eater he ^{has} big
teeth some thing meat he has
a short tail to swipe away
his enemy. He lives in
a cave in the desert
~~It has 4 teeth.~~

A ~~max~~ for Feet

his eye BROWS to protect his eye
as from the sun. Still so he can
live better.

DIPLACODONT

Appearance

short blue
with a long
neck

Diet

She is
omnivorous
it and
eats
plants

Habitat

in
the forest.

Amazing Facts

they are the longest
dinosaurs.

Tyrannosaurus Rex

Tyrannosaurus Rex live...

55 million

years ago

there was

of trees

There was no

people.

Tyrannosaurus Rex eat...

meat and

carnivore.

he's got

sharp teeth.

Tyrannosaurus Rex ^{looks like} survive...

he was green

he is dark green and lustrous

He is big.

His teeth were sharp.

Miribelomys

Appearance

She has long wavy scales and low gray eyes. It has four gasterous legs. So it can run as fast. It has a long snout and a tail.

Diet

It is a herbivore because it has small smooth teeth. She eats leaves and soft plants.

Habitat

There are lots of gasterous trees and plants. I can hear dinosaur screeching this sharp point claws.

A mating faces

It can get what and glob. It is the roundest dinosaur in the world.

Tri-Rex

Appearance:

He has sharp
teeth
Eaten

Habitat:

The hills
The sea
The beach

Diet:

The Tri-Rex is an omnivore

He eats F O T M S and d u r e s

Amazing Facts:

He can run up to 405 mph

He hunts in the
sand, water and land

Pascadalocus

Appearance

The Pascadalocus has a long neck, a long tail, scales and 4 legs.

It is green and large dinosaur.

Diet

The Pascadalocus is a herbivore.

It eats plants and leaves.

It has flat teeth.

Habitat

It lives in the forest.

There I can see big trees and I can hear birds singing and I can feel cold.

Amazing Facts

The Pascadalocus is a reptiles animal. I love it because it is clever.

Diplodocus

Appearance

- long neck and tail
- massive
- green for camouflage

Diet

- herbivore ate plants
- had flat teeth

Habitat

- forests of North America
- lived in herds

Amazing facts

- They lived 152 Million years ago
- They push down trees so they can get food

It is a bull dinosaur who
distracts others so it doesn't
get eaten.

Mosasauros

Appearance

Like a crocodile

With flippers.

They had scaps and
were black

Diet

They ate most things
in the sea such as
shellfish, squid,
sea turtles and
even sea birds.

Habitat

Lived in the sea
and used to
come up for
air.

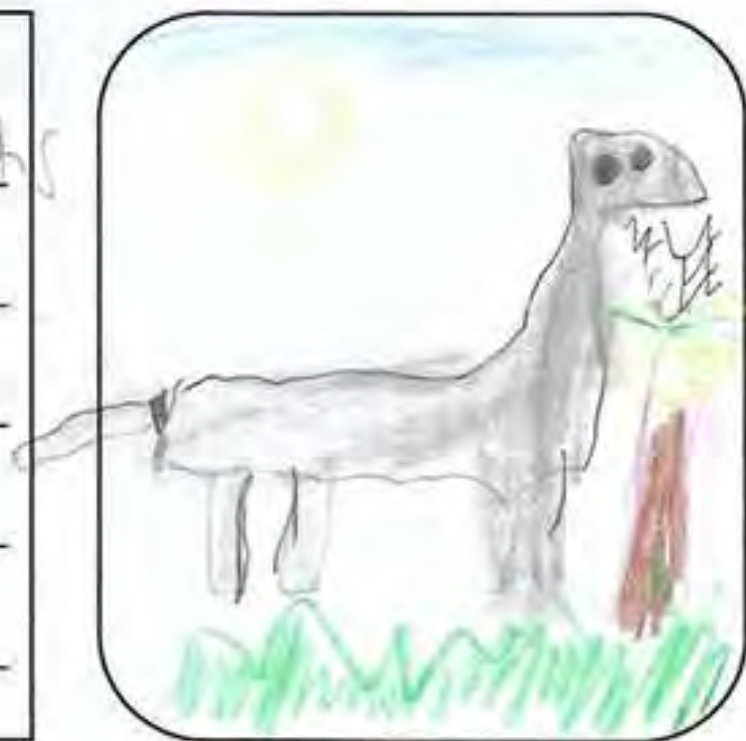

Amazing Facts

Its length was bigger than a T-Rex

Diplodocus

Appearance

It had 4 legs
and a small
head. It had
a long neck.

Diet

It is a
herbivore.
Its diet consists
of plants.

Habitat

It lived on
the plains
and on the
edge of forests.

Amazing Facts

It could be 6m long.

LA DOA

• The megalodon is a shark that lived when the dinosaurs did.

• A bar 2.6 million yu sago.

• It is the biggest

shark to have ever lived. up to 21 meters long.

• megalodon means large tooth. I think the word is zentend was long.

• Actual size of a

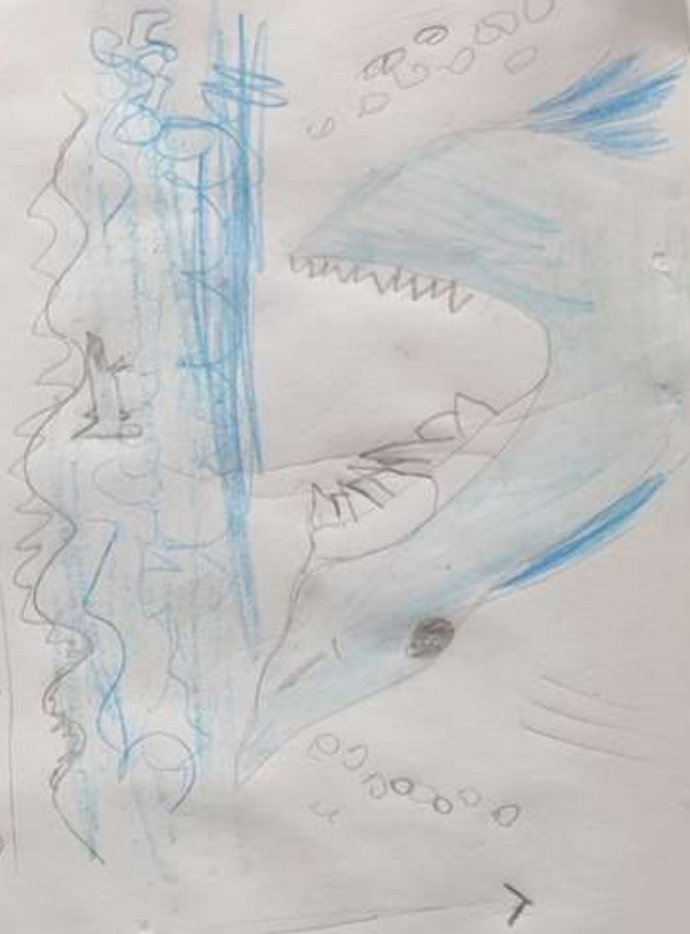

megalodon tooth.

• They lived in the deep

sea.

• megalodons did

come from.

Nice or rug

Appearance

googly eyes,
big spikes
sharp teeth
cute and like
a rainbow

Diet

He eats
Meat. He
likes
Sausages.

Habitat

He lives in
a forest
and swims
in water.

Amazing Facts

good hunter, very fast
+ UTAG invizible.
