

Shark Family Peg Puppet Finger Activity Instructions

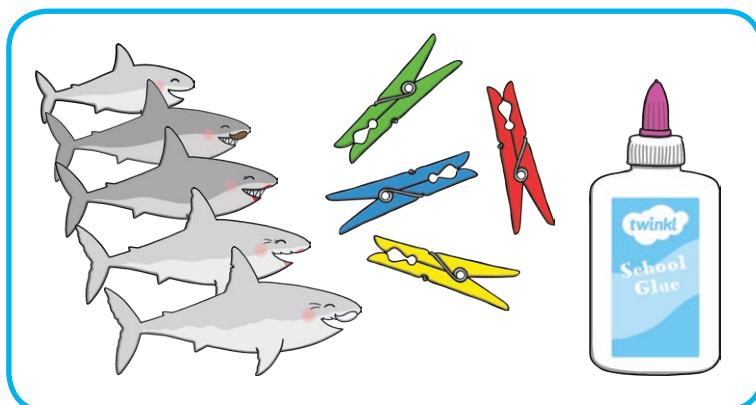

You will need:

Shark Family Peg Puppets

Clothes pegs

Glue or double-sided sticky tape

Laminator (optional)

Instructions:

1. Print out the Shark Family Peg Puppets and cut out the peg puppets you would like to make. Decide which hand your child will use for the activity as this will dictate the sharks that you will need. For your child's right hand, choose sharks swimming towards the left. For your child's left hand, choose sharks swimming towards the right.
2. Laminate the sharks if you wish.
3. Cut each shark in half through its mouth and along its body where the white belly meets the grey.
4. Use glue or double-sided sticky tape to attach one half of the shark to each 'arm' of the clothes peg, so that when the peg is squeezed, the shark's mouth opens.
5. Get playing! Using the peg is a great finger exercising activity.
