

L0: To be able to understand the inverse. (Red)

Example

$$10 \div 2 = 5$$

$$10 \div 5 = 2$$

$$2 \times 5 = 10$$

$$5 \times 2 = 10$$

Orange

Green

$$\square \times 5 = 50$$

$$\square \div 10 = 5$$

$$50 \div 5 = \square$$

$$\square \times 5 = 40$$

$$\square \times 10 = 50$$

$$\square \div 5 = 10$$

$$40 \div 10 = \square$$

$$\square \times 5 = 30$$

$$\square \times 3 = 6$$

$$\square \div 10 = 7$$

$$100 \div 10 = \square$$

$$\square \times 4 = 8$$

$$\square \times 4 = 20$$

$$\square \div 2 = 10$$
