

Africa Song

Africa, Africa,
please save all the animals in Africa
Africa, Africa,
please save all the animals in Africa

There's the elephant, the lion, the rhinoceros
There's the antelope, giraffe, hippopotamus,
Man comes along and uses his gun,
Makes lots of money, or just for fun

Chorus

There's the desert, the swamp and the ocean deep
There's the river and jungle that we want to keep
Man comes along and clears the way
Takes all our food and homes away.

Chorus

There are societies, researchers and scientists
Organisations, conservationists
They come along and shout "hey wait!
Stop what you're doing before it's too late!"

Africa Song Question

How many different animals are mentioned in the song?

Why do poachers kill the animals in Africa? (give both reasons)

Whose home and food is taken away?

Name two of the types of people who are trying to save the animals.

What will happen if it is too late?

Please remember: Although there are poachers and hunters in Africa who are destroying animals' homes and killing animals for unfair reasons. There are lots of good people who are coming together to save the animals and protect their habitats (their homes).
