

An animal,
was walking round,

**She saw that treat,
Laid at her feet,
And decided it was just the time,**

To have something to eat.

**The cow went for a wander,
Swallowing the pear,**

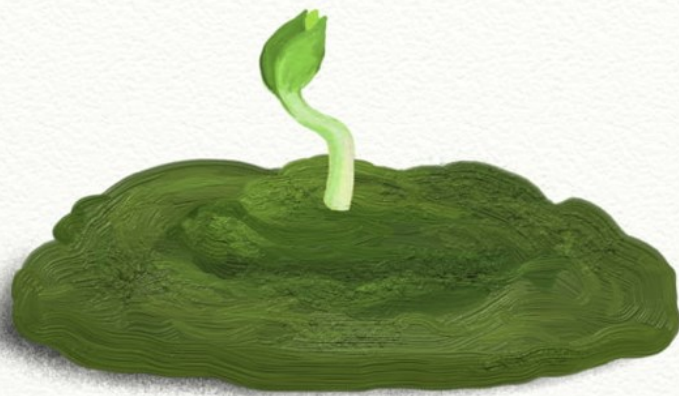

**The fruit went through her tummy,
(Cows have four parts to theirs).**

**In poop the pear came out,
And only the seeds remained,**

It rained,

And a seed began to sprout.

**It's called germination,
When a seed begins to grow,
It needs:**

**It's something that's quite slow.
And did you know...**
